

Sahil Pant

Frontend Web Developer | Web Development HTML/CSS

@ sahil111pant@gmail.com [Linkedin](#) [Github](#) [FARIDABAD, HARYANA, 121005, INDIA](#)

ABOUT ME

I am a final-year **Bachelor of Computer Applications (BCA)** student passionate about **programming and web development**. While my academic record is modest, I have focused on building **practical skills and hands-on experience** in technology.

I am proficient in **HTML, CSS, JavaScript, C, Java, and Python**. My projects include:

- [Netflix Homepage Replica](#)
- [GSAP-powered Portfolio](#)
- [Spotify Homepage Clone](#)
- [Cafe Website](#)

Currently, I am expanding my expertise in **React.js and Node.js** to enhance my full-stack development capabilities. Driven by a passion for **innovation and continuous learning**, I aim to contribute to impactful projects and grow in the dynamic tech industry.

SKILLS

PROGRAMMING

HTML, CSS, JavaScript, Python

WEB DEVELOPMENT

Frontend Development

TOOLS & TECHNOLOGIES

Git, GSAP

PROJECTS

Netflix Homepage Replica

🔗 <https://sahil-pant.github.io/netflix-homepage-replica/>

A pixel-perfect clone of the Netflix homepage built using HTML, CSS & JavaScript. Designed for layout practice and visual fidelity. Created by Sahil Pant.

- Pixel-perfect recreation of the Netflix homepage
- Clean and modern layout
- Hover and UI effects for interactivity
- Custom styling with CSS Flexbox/Grid
- Desktop-first approach

GSAP-powered Portfolio

🔗 <https://sahil-pant.github.io/My-Portfolio/>

My personal developer portfolio site built with HTML, CSS, and JS. Showcases my projects, skills, and contact info.

- Responsive design for all devices.
- Smooth scroll and animated transitions.
- Projects section with live previews and GitHub links.
- Contact form integration.
- Styled with modern CSS for clean visuals.

Spotify Homepage Clone

🔗 https://sahil-pant.github.io/Spotify-Clone_Homepage/

This project is a basic front-end replica of Spotify, created using only HTML and CSS. This initial version includes only the static front page and does not include functionality for searching songs, creating playlists, or listening to music.

- This project is a basic front-end replica of Spotify, created using only HTML and CSS. This initial version includes only the static front page and does not include functionality for searching songs, creating playlists, or listening to music.
- Pixel-perfect Spotify homepage replica.
- Modern UI with clean and responsive layout.
- Hover effects and interactive elements.
- Fast loading static site.

Cafe Website

🔗 <https://sahil-pant.github.io/Cafe-Website/>

Bhaichaara Cafe is a sleek, multi-page static website for a fictional cafe, built using HTML, CSS, and JavaScript. It features a clean homepage, login, and checkout forms—designed with desktop-first principles and ready for future responsive and animated enhancements.

- Clean and modern homepage layout
- Login and checkout pages (static forms)
- Desktop-first design
- Modular CSS and JS files for each page
